

Where do you want the skip bin positioned?

This is an important consideration when ordering a skip bin! We prefer to put your bin inside your property line – either in the driveway or front yard. Our small “Lite bin” trucks can even put the bins into the back yard if you have driveway access.

Footprint of all the LITE bins - 2.5m x 1.7m.

Having the skip bin closer to your home means it will be easier for you - less distance and effort carrying the rubbish to the skip bin and less chance of someone doing a drive by and popping a little extra in. (or taking something out!) However, if you are unable to have the skip bin inside your property the drivers are able to locate the bins on public land like the footpath, bordering parklands or easements.

Lite Skip bin 6 Cubic m - Door Open 1

**It is the customer's responsibility to check with the council about the requirements for the property and organise a permit if needed. Without a permit you may potentially be fined by the local council - usually if someone makes a complaint. The Rubbish Removers do not accept responsibility for acquiring permits, checking the permits or paying fines issued for the unlawful placement of a skip bin.**

Local councils have varying regulations about where you may position the bin and you may be required to apply for a temporary permit.

It is the customer's responsibility to organise a permit. Without a permit you may potentially be fined by the local council - usually if someone makes a complaint. The Rubbish Removers do not accept responsibility for acquiring permits, checking the permits or paying fines issued for the unlawful placement of a skip bin.

Check with your local council regarding the specific requirements in your location-

Another option is to try our Rubbish Load and Go service – We work out a day and time frame suitable. The driver comes by and loads the bin. (you are welcome to help him- it may save you some money!)

Pricing is the same as our “Fill to Level” skip bins – you are paying for the rubbish volume and that includes 30 mins of drivers load time. If it takes the driver (and you, if you are helping) longer than 30mins to load the bin an additional surcharge is payable. Payment needs to be made prior to the driver leaving the site.
